How a scholarship from UPES changed a student's life

<https://blog.upes.ac.in/how-a-scholarship-from-upes-changed-a-students-life/>

Aayushi Verma, a girl determined to pursue her dreams, bagged 100% scholarship from UPES in 2016 and is now aspiring for higher education in one of the Ivy League schools

Four years ago, in 2016, after her father had a paralytic attack, life took a new turn for Aayushi Verma.

“There was hardly any hope and I could barely see any light coming through. But as we say, good things happen when we least expect it. The same happened with me when I got a chance to study in UPES through an NGO (Purkal),” recounts Aayushi Verma. After detailed applications, written assessments, followed by a Group Discussion and Personal Interview (GDPI), Aayushi got the confirmation of a 100% scholarship. The scholarship covered hostel fees, uniform, books, industrial visits and other expenses.

Aayushi, a second year student of [BBA Core, UPES School of Business](#), is currently doing her summer internship with Bajaj Health Insurance. She's gaining expertise in skills like human resource management and teamwork.

A brilliant and confident student, Aayushi shares details about her inspiring journey and how UPES helped transform her life. Her story will reaffirm your belief in dreams, hopes and miracles.

I want to pursue my post-graduation from one of the Ivy League schools in the US and create a bright future for myself

How has UPES shaped your life?

Industrial visits, industry alliances, up-to-date curriculum, decision-making abilities, team projects, business events, cultural fests, guest lectures, research assignments, group presentations and soft-skills have laid a strong foundation for me to become a good team player and a global business professional. The constant support by my faculty and peers and exhaustive online resources have helped me develop a better understanding of the modern business world.

Who is your inspiration?

My mother has always been my biggest support and inspiration. Despite the ups and downs, my mother never lost hope and puts in a lot of hard work to take care of the family. Her strong determination and never-give-up attitude encouraged me to do well and succeed in life. I further want to pursue my post-graduation from one of the Ivy League schools in the US and create a bright future for myself.

What is the biggest challenge you have faced so far?

Owing to challenging circumstances back home, somehow I always used to shun talking about my family and mixing with people. I used to feel so heavy inside. After struggling with my emotions for six months, I told everybody about my family circumstances. Luckily, all of them accepted me with my reality and supported me in a big way. It was a great relief and I realized that it is important to be transparent and honest, personally as well as professionally.

What are your thoughts about UPES Shakti?

The idea of providing [25% scholarship on tuition fee to all girl students](#) enrolling from year 2020 is a big step towards empowering girl education. Patriarchal society, gender stereotypes and lack of financial support are the primary reasons that restrain young girls from pursuing higher education. Therefore, 25% scholarship would open doors for many small-town girls to work towards their dreams and ambitions. Going forward, even I would love to contribute actively for girls' education and women's empowerment.

Lastly, I would like to thank the top leadership at UPES for the wonderful initiative of providing 100% scholarship to students who want to prosper, but do not have the means. People who believe in gender equality make this world a better place to live in. Every act of compassion is like a ripple in a pond— the impact of this initiative will reach far beyond what you can see.

A once-in-a-lifetime opportunity

<https://blog.upes.ac.in/jigyasa-pahwa-my-life-at-upes/>

JIGYASA PAHWA · MARCH 13, 2020

UPES gave me the golden opportunity to study a semester abroad at Coventry University, UK. The fact that I did not pay any tuition fee, was a big perk for me as a student

I hail from a non-legal background and being a first-generation lawyer in my family, I had to make a wise decision while picking my law school. After months of research and hard work, I am glad that I chose UPES back in the year 2016. Being a law aspirant, I always knew a balance between personality development and academics was extremely crucial. UPES as a university helps its students evolve their character, get industry exposure and become the perfect choice for recruiters.

Being an extrovert, I was an active public speaker. I represented my university at the national level for numerous moot and debate competitions. I was fortunate enough to be chosen for the Erasmus and Exchange Student Program in England, which also happens to be my dream country to pursue higher studies. As a child, I was enamoured by London (from what I could see in movies, sports matches and news), but never really got the opportunity to visit the city.

UPES gave me this golden opportunity to study a semester abroad at Coventry University, UK, as a Business Law student. And, I did not have to pay any tuition fees, which is a big perk for any student. I would say this exchange program was a life-changing experience because it made me more confident and prepared me to conquer the impending challenges. Even though this was not the first time I had gone to a foreign destination all by myself, I was a little nervous about this new beginning.

However, several people had put in their efforts to make this exchange program successful. From choosing my modules for the exchange to regularly taking updates during my stay, the faculty was always in the forefront to help.

The academic structure at Coventry University was completely different from what we had in India. I had to choose three modules, which were a blend of practical and theoretical aspects of business law. Apart from assignments and coursework, we were also required to attend the practical sessions of Mediation and Negotiation. This helped me build more self-confidence to appear in the courts and do in-depth research. There were multiple conferences and seminars that we attended. Faculty from various reputed colleges around England and solicitors from esteemed law firms gave lectures every week. I benefited a lot from these sessions.

Jigyasa Pahwa

My experience in England was picture-perfect and undoubtedly the best time of my life.

The kind of exposure I got from this exchange program helped in my overall development. There were continuous evaluations and teachers would regularly call students for discussions. I now have friends from numerous countries. Various co-curricular activities and the chance to build a network across the world made me understand and experience a wide range of cultures. My experience in England was picture-perfect and undoubtedly the best time of my life.

I am thankful to UPES for giving me this exhilarating opportunity, wherein I learned some life-long lessons. I also received my letter of recommendation from a senior lecturer at Coventry University, which will help me in applying for LLM at reputed universities in the UK.

I take pride in saying that I am a part of this prestigious university and it has changed my life for good.

[UPES gave me a chance to develop holistically](https://blog.upes.ac.in/upes-gave-me-a-chance-to-develop-holistically/)

<https://blog.upes.ac.in/upes-gave-me-a-chance-to-develop-holistically/>

SNEHA BANERJEE · JULY 6, 2021

Diversity at the college campus gave me an opportunity to engage with varied perspectives and learn from peers with varied cultural backgrounds

I used to be a science student in school before I took up the BBA program at UPES. Initially, I found it difficult to cope with subjects like Accounts and Finance. But my mentors and professors were a constant source of guidance for me.

Coming from a Tier-2 city to pursue this program, I had to stay away from home for almost three years. During this phase, my interactions with fellow students and exposure to different cultures shaped my thought process and approach towards life.

While the Personality Enhancement Programme was a lot of fun, when it came to academics, there were intense case study discussions, presentations, assignments, mid-semester and end-semester examinations. Theoretical knowledge was supplemented with industry visits and internships. The first visit was made to Jawaharlal Nehru Port Trust (JNPT), Mumbai, where I got practical exposure to the port operations for export-import. The second visit was to Eric Apparels, where I learnt about the manufacturing of garments and the process to export them. Thereafter, we went to Usha Martin, which is one of the world's leading manufacturers of wire rope. Here, I got an insight into the manufacturing of various types of wires, ropes, and export/import procedures. Lastly, a visit to Hind Terminals gave me a view into container train operations.

Theoretical knowledge was supplemented with industry visits and internships

My first internship was in the service (logistics) sector with DHE Shipping Services, where I was introduced to the export/import operations. Being a student of Foreign Trade, it was imperative for me to know the custom clearance procedures for both import and export and the compliances and documents pertaining to it. I also interned in the manufacturing sector which helped me in developing both my professional as well as personal skills. I got to know the whole value chain of Indian Made Foreign Liquor (IMFL). It also helped me to learn the linkages between the various stakeholders in the liquor manufacturing industry. My industry guide was a woman who was quite inspiring to work with.

Due to the vast range of disciplines and courses, UPES is home to a sizable student population from diverse backgrounds. The multidisciplinary environment has helped engender a vibrant and engaging campus life. The scenic beauty and verdancy of the surrounding mountains are breath-taking.

The university has various clubs and student chapters that conduct both technical and non-technical events. Cultural activities are a vital part of personality development. From becoming a member of the Discipline Committee, organising an Entrepreneurship Awareness Camp to participating in various events, my UPES journey has been truly transformational. I had the support of my seniors throughout the period of my graduation.

I also got a chance to travel to some of the exotic places around Dehradun – Mussoorie, Dhanaulti and Rishikesh – with friends. I stayed at the university hostel and didn't have to worry about security, comfort or living facilities. Although there were some restrictions with regard to the entry time, overall, it was a great experience. My roommates couldn't have been more perfect for me. Both of them were from different states, cultures and even different specializations – one was from Aviation and the other was from HR. Got to learn a lot from them, not only about their respective domains, but also about their cultures and lifestyles.

I got to learn a lot from my friends, not only about their respective domains, but also about their cultures and lifestyles

My photographs with my friends, having a good time at the campus, never fail to bring a smile to my lips. These are moments that carry a lot of sentimental value for me and will be embedded in my heart as precious memories forever.

Wellbeing of employees and students top priority for UPES

<https://blog.upes.ac.in/wellbeing-of-employees-and-students-top-priority-for-upes/>

PRADEEP JAGWAN · MAY 18, 2021

UPES partners with healthcare providers to make treatment affordable, while also making sure employees take paid time off to take care not only of themselves, but their families too

The second wave of the COVID pandemic in India has been nothing short of devastating, leaving in its wake a trail of death and destruction. For more than a year, people across the world have been dealing with the physical, mental, and professional impact of the pandemic. Committed to the welfare of its academic and non-academic community, UPES has been taking all possible measures to help people in distress.

While it was about making work from home more convenient initially, as the days wore on, the focus shifted to the mental and physical impact of Covid.

Some of the initiatives taken by UPES are:

Academic Flexibility

Many students find it difficult to maintain the pace required to cope up with academic deadlines. For the convenience and safety of the students, the university decided to extend the deadlines for assignments. Also, students who are not able to appear in the end semester examination due to a medical emergency can give their exams in July 2021.

Medical Support

UPES has recently launched an initiative called Sanjeevani for its employees. It has tied up with Practo, an online doctor consultation app that offers complete telemedicine solutions for health and medical needs. Employees will get access to around 25 specialists across diverse fields. In addition to the employees, six family members will also get access to these healthcare professionals. Employees will also get 20% discount on medicines and lab tests.

UPES has recently launched an initiative called Sanjeevani for its employees

For the students, the university is planning insightful webinars to answer all the questions related to Covid-19. These sessions will enable students and their families to cope with the situation. Apart from this, there is a 'Covid Care Officer' that provides information and logistical support to employees regarding things like oxygen, bed, and much more.

24*7 Counselling Service

In this time of social distancing, it can be challenging to find ways to stay healthy in mind, body, and spirit. The university has made provisions for 24x7 emotional assistance through professional counsellors.

Faculty/ Mentors/ Peer Groups

Various groups have been formed by students and faculty to support individuals in need of help. These networking groups significantly reduce stress and anxiety.

Here's what some of the UPES employees and students have to say about the initiative:

The university recently donated 50 oxygen concentrators to Shri. Tirath Singh Rawat, Chief Minister, Uttarakhand, for the people of the state. UPES has been also supporting 11 neighbouring villages to curb the spread of coronavirus.

Dr. Juhi Garg, Lead-Project Shakti and CSR at UPES, says, "The Work from Home policy provides academic flexibility for faculty and students. Apart from this, support in terms of a dedicated team of

doctors, arrangements in hospitals, additional insurance to cover Covid Home Care support, and vaccination drive, ensured that the people felt safe and secure.”

Geetanjili Raghav from the Department of Mechanical Engineering says, “My parents had mild symptoms like fever. They were living in isolation and finding it difficult to meet their food requirements. That is the time when I decided to get in touch with UPES Covid Care Officer to provide food to my parents. I am glad to share that UPES delivered delicious food packets to my parents during home quarantine.”

Anita Kumari, a first-year student from UPES School of Health Sciences, says, “I tested positive for coronavirus while I was in Dehradun. I was all by myself and for about 15 minutes panic gripped me. I would like to thank Dr. Neeraj Mahindroo, Dean, UPES School of Health Sciences, and Dr. Smriti Arora from UPES School of Health Sciences for constantly checking on me. They also provided medicines, oximeters, and food so that I could recover fully.”

Anamika, a first-year student from UPES School of Health Sciences, says, “I was living with my friend when I got infected. I informed my professors, Dr. Divya Rawat and Dr. Hira Rana from UPES School of Health Sciences. I got medical advice, food, and medicines immediately. My professors also told me not to worry about my assignments and exams as they would help me with that once I recovered.”

[Access to education – their springboard to a better life](https://blog.upes.ac.in/access-to-education-their-springboard-to-a-better-life/)

SHAILJA KATYAL VERMA · FEBRUARY 20, 2023

Student beneficiaries of Purkal Youth Development Society who are now receiving full scholarships at UPES

They defied the odds and indigent circumstances to redefine their future. Nurtured by Purkal Youth Development Society (PYDS) and UPES, they are progressing in their academic journey and rapidly transitioning into skilled professionals, ready to take on the world

Astha Rana is a 3rd-year student of B.Com. (Hons) in Banking, Management and Insurance. Her dad is an electrician, while her mother runs a shop that sells cosmetics and bangles in Gajiyawala Village in Sahaspur Block of Dehradun, besides supplementing the family income through her tailoring work. After she starts working, she wants to take her mother for a vacation as she is fond of travelling.

Akash Pal, a 2nd-year student of B.Tech. Automotive Design Engineering, has won several state-level painting competitions and is also a member of the basketball team. He finds the environment at the university liberating as it gives him free access to the labs which had restricted entry in school. His mother is an artisan who makes cushions and quilted blankets under Project Purkal. He aspires for a well-paying job so that his mother does not have to toil to make two ends meet.

Amisha Chauhan, who is in the 4th year of BA LLB, is specialising in Energy Laws. She envisions her future as a corporate lawyer or a civil servant and wants to ensure a “stable life” for her sisters and her mother.

Anchal Tailwal is a 2nd-year student, pursuing B.Tech. CSE with specialisation in DevSecOps. She is a member of several student chapters, including the Association for Computing Machinery (ACM) and the Institute of Electrical and Electronics Engineers (IEEE). She likes to play basketball and participate in personality development workshops in her free time. Her family owns a groceries shop.

They are all students who were nurtured in their early years by Purkal Youth Development Society (PYDS), a non-profit in Dehradun, and are now receiving full scholarships from UPES to continue their higher education journey.

UPES’ association with PYDS began in 2018 under Project Protsaahan, and to date, 15 students have benefitted from the initiative. These students belong to families with meagre means. Their will to succeed despite their impoverished circumstances has made them an inspiration not just for their families but for the community at large.

Says Rahul Nainwal, Director-CSR, UPES, “It’s heartening to see how they have transformed and are now leading fulfilling lives. The impact of this initiative is evident in the success stories of these students, who have overcome significant barriers and are now contributing to society. This initiative not only provides access to education but also empowers young minds to dream big and achieve their goals, regardless of their background.”

Protsaahan was institutionalised in 2019 and now supports two PYDS students every year. The courses for which support is available include all programs of B.Tech., Integrated LLB, BBA and B.Des. Under the project, UPES bears all costs, including academic and tuition fee, hostel charges, uniforms, laptops, one-time charges as well as the refundable security, for the entire duration of the course.

The annual bursary under this project is ₹ 10-15 lakh per PYDS candidate. This includes a stipend of ₹ 20,000 to be given to the candidate during his industry internship as per the curriculum.

The project takes care of the entire fees of two students, provides stipend during internships, a faculty to mentor and monitor academic and co-curricular progress, and a member from the Career Services team to assist in internships and placements.

Priyanka Bhatt, who did her B.Tech. in Electronics and Communication Engineering (2018-2022) at UPES, is today working as Associate Engineer with Silicon Labs in Hyderabad. "I joined this company in June 2022, and I have had a good experience so far since it is related to my core domain. Later on, I might think of pursuing M.Tech.," she says.

Aayushi Verma, who studied BBA (Core) at UPES School of Business, is now Head Coach at Leverage Edu in Noida. In 2016, after her father had a paralytic attack, life took a new turn for Aayushi Verma.

"There was hardly any hope and I could barely see any light coming through. But as we say, good things happen when we least expect it. The same happened with me when I got a chance to study at UPES," recounts Aayushi Verma. After detailed applications, written assessments, followed by a Group Discussion and Personal Interview (GDPI), Aayushi got the confirmation of a 100% scholarship. The scholarship covered hostel fees, uniform, books, industrial visits and other expenses.

For most of these kids it is about securing a better life for themselves and their loved ones.

Lucky Singh, a native of Haridwar who joined B.Tech. CSE this year, is determined to meet the diverse group of learners on campus and enhance his social skills. His father, a farmer, is responsible for the family of six, including his two sisters, mother and grandmother. He wants to work towards a career in cyber security, besides learning to play the guitar.

Anshit Mamgain's story is no different. He joined UPES with the dreams of "expanding his horizons". His father, a schoolteacher, wanted him to join the defence forces, but he could not make the cut due to medical issues. And it was just as well, because he had dreams of becoming a coder. He now wants to ensure a secure future for his grandmother, mother and two younger sisters.

The shadows of their past have not dimmed their spark. They are banking on education to give them an egress from hardships. They may have had humble beginnings, but their aspirations are sky high. And UPES, upholding its cherished values of inclusion, equity and diversity, is leaving no stone unturned to ensure that they realise their dreams.

How UPES scholarships are helping learners achieve their career goals

<https://blog.upes.ac.in/how-upes-scholarships-are-helping-learners-achieve-their-career-goals/>

EKTA KASHYAP · JULY 27, 2021

UPES truly believes that students can achieve great things despite the odds against them; no one should be deprived of education due to financial limitations. Hence, the university offers four kinds of scholarships that students can avail subject to the eligibility criteria

When a scholarship is awarded to a student, a chain of change begins. The students receiving the scholarships go on to live fulfilling lives and create a positive impact in the society. There is a clear effect of financial aid on the retention, academic success, and graduation rates of students in higher education.

UPES truly believes that students can achieve great things despite the odds against them; no one should be deprived of education due to financial limitations. Hence, the university offers various scholarships, enabling more and more students to pursue their passions.

The scholarship programs are designed to ensure that economic circumstances do not prevent a student from being able to enrol at UPES. There are four kinds of scholarships that students can avail themselves of depending on the eligibility criteria.

1) Scholarship support for COVID warriors:

Honouring the selfless and dedicated services of COVID warriors such as teachers, health workers, doctors, paramedics, military, paramilitary and police personnel, and civic workers, UPES is offering scholarships to their wards. The financial aid can also be availed by the ward of the individual who lost his/her/their life and was the sole breadwinner of the family and left behind the said ward.

The scholarship is being launched for students into undergraduate and postgraduate during the academic year 2021-22, which shall be awarded for one year of the program only.

For details, please visit <https://www.upes.ac.in/corona-warriors-scholarship-scheme>

2) 'Shakti' scholarship for girl child:

Bridging the opportunity gap from classroom to the boardroom, UPES is providing a 20% scholarship for girl students for intake in undergraduate programs for the academic year 2021-22.

This scholarship will be offered for the first year on the tuition fee to all girl students taking admission in UPES in the year 2021 subject to a minimum of 70% marks in the 12th board exams.

For details, please visit <https://upesforshakti.upes.ac.in/>

3) Merit-based scholarship:

UPES offers up to 100% merit-based scholarships to eligible students in specific programs. These scholarships are allotted for the first semester in order of merit to eligible candidates. For details, please visit <https://www.upes.ac.in/scholarships>

4) Domicile scholarship:

UPES is one of the few universities providing attractive scholarships for Uttarakhand bonafide residents. It provides a 33% concession in the tuition fee of Uttarakhand state board toppers. For details, please visit <https://www.upes.ac.in/aspiring-students>

How UPES scholarships have benefitted students over the years

"I am a little shy but very ambitious. I want all my dreams to come true, and UPES, through its 'Shakti' scholarship is supporting me to do that and more. UPES was already popular in my family. The scholarship further reaffirmed my decision of coming here," says Alisha Farheen, a student at the School of Health Sciences. "One day, when I narrate my story to someone, I would tell them how this scholarship changed my life forever," she gleams.

Talking about the culture at UPES, Farheen adds, “Everyone in the university is exceptionally welcoming; faculty are a class apart. If I ever get stuck, whether in my assignments or while understanding a concept, my professors explain it till I completely understand it. UPES is not just about academics; it nurtures us to live a purposeful life – both professionally and personally. I am happy to be a part of such an institution.”

“My father was about to take an education loan for my under graduation. Just when hope seemed to recede, I learnt about the ‘Shakti’ scholarship UPES was offering. I am honoured to have received it. It has not only been an immense financial help for my family, but it has also provided me with the ease of mind to pursue engineering to the best of my abilities. I appreciate the financial support given to me to pursue my educational dreams,” says Tisha Goswami from UPES School of Engineering.

In 2016, after her father had a paralytic attack, life took a new turn for Aayushi Verma. “There was hardly any hope and I could barely see any light coming through. But as they say, good things happen when we least expect them. The same happened to me when I got a chance to study at UPES with a 100% scholarship. The scholarship covered hostel fees, uniforms, books, industrial visits and other expenses.”

Aayushi, a student of BBA Core, UPES School of Business, has done an internship with Bajaj Health Insurance, where she gained expertise in skills like human resource management and teamwork.

These are some of the several brilliant and confident students who have made the most out of the UPES scholarships. As an institution, UPES sees the scholarships as a partnership between the students, their families, and the university. The range of scholarships is designed to help passionate and meritorious students realise their study dreams and enhance their higher education experience.

Dear Sir,

PERSONAL BANKING SEGMENT – EDUCATION LOAN
APPROVAL OF INSTITUTE FOR STUDENTS EDUCATION LOAN

With reference to your letter dated the 8th January 2008, we advise that University of Petroleum and Energy Studies has been approved for SBI Student's Education Loans. The University may mention the name of SBI in its admission brochure for seeking educational loans by prospective students. The loan can be availed for the graduation as well as post-graduation courses at Gurgaon & Dehradun from any branch of SBI (all across the country).

Yours faithfully,

A handwritten signature in black ink, consisting of a series of vertical and horizontal strokes, positioned above a horizontal line that extends to the right.

DY. GENERAL MANAGER &
BUSINESS HEAD (PB)
