EVENT REPORT

Nutrition awareness in underserved communities

SDG 2.4 · Food and nutrition in the community

ORGANISED BY
B.Sc. Nutrition students, School of Health Sciences and Technology

FORMAT
Street play

TOPICS
Anaemia myths, fortified nutrition

About

Taking their learning beyond the classroom, B.Sc. Nutrition students visited underserved communities with a street play that addressed common myths about anaemia and stressed the importance of fortified food in everyday diets.

The performance drew active participation and conversations with the audience, and many attendees showed interest in passing the message on within their own communities.

Photographs

Students perform the street play.

Posters on anaemia and fortified food.
