2025	School of Business	9.4 Research and partnerships with industry	SDG 9, SDG 13, SDG 17

About the event

The UPES School of Business hosted a masterclass by Prof Cynthia Caron of Clark University on the role of business consulting in building climate resilience.

The session covered risk assessment, building sustainable supply chains and fostering community partnerships. It was part of the school's effort to prepare students for industry and equip them to lead in a fast-changing business landscape.
