About the event

The Workshop on Advances in Automotive Industry (WAAI'25) was held on 15 September 2025. It was organised by the Mechanical Cluster of the School of Advanced Engineering together with the SAE India UPES Collegiate Club.

The workshop gave students insight into emerging technologies, evolving trends and the future direction of the automotive sector, and included hands-on sessions at GarageX, the school's automotive workspace. Participants who completed the workshop received certificates of participation.
