2025	School of Computer Science and School of Advanced Engineering	9.1 Research on industry, innovation and infrastructure	SDG 3, SDG 4, SDG 9

About the event

The School of Computer Science and the School of Advanced Engineering held a workshop with two experts from London South Bank University.

Dr Pawel Markiewicz, Senior Lecturer in Medical Imaging and Computer Science, introduced students to AI- powered medical imaging and showed how artificial intelligence is changing health care diagnostics. Prof Saurav Goel, Professor of Manufacturing, ran a hands-on masterclass on spaghetti structures that demonstrated the principles of structural design, creativity and resilience.
